

MASTERMAX™

ROOFMAX™

Roof Paint

Water Based • Acrylic • Linseed Oil

- All-in-one primer, undercoat & finish coat
- Modern day anti-corrosive & fungicidal technology for superior protection
- Water based, low sheen finish with high opacity giving excellent UV absorption & high durability
- Suitable for roofs & spouting, galvanised iron & other metal surfaces, new & previously painted surfaces, concrete roof tiles
- Also suitable for Colorsteel® type products – these may require priming with ROOFMAX PRIMER due to the very smooth, baked surfaces where elevated adhesion is required
- Available in Test Pots, 4 litres & 10 litres

Exclusive to

MITRE 10

MASTERMAX™

ROOFMAX™

Roof Paint Water Based • Acrylic • Linseed Oil

ROOFMAX has exceptional tolerance to imperfect surfaces compared to conventional acrylics (especially flaking surfaces) due to the special wicking/bonding ability of linseed oil. Suitable for the collection of water but the roof surface must be flushed first (refer to label).
